

I lost my job due to downsizing, and had to move back to IN. How happy I was when I was NOT getting unwanted calls. I don't have money to spend, and not having to cringe when answering the phone has been a blessing.

I used to receive at least 20 calls per week, now I receive none that aren't either job possibilities or personal calls from friends or family.

Indiana's law should NOT be abolished by a Federal Law overriding it. I pay enough for my telephone lines, and I feel that the great State of Indiana is protecting me with its laws. Please help keep our private lines PRIVATE.

One other thing, for those of us who live alone, and for all the elderly people in the world, getting those calls can be confusing, and especially the elderly and lonely will talk with anyone. Please, protect our elderly with this law of Indiana's!
